GENERAL INFORMATION

SALE TIME:

1:00 p.m., M.S.T., Tuesday, December 3, 2019.

LOCATION:

1 1/2 miles south of Etzikom on Highway 885 ~ Signpost 61033

DELIVERY:

Free delivery within a 350 mile radius of the sale; further, for the cost of our fuel on all cattle.

HEALTH:

The health of the cattle is excellent. Calves receive 7 Somnus with Spur plus Pyramid FP4 & Presponse at branding and in October. Cows and yearlings receive Pyramid FP5 in May. All cattle had Pouron Ivomec in October.

SPECIAL SALE CONDITION:

All Bull Buyers have the option to let us winter the bull for \$75 per month for bull calves, \$125 per month for yearling bulls, until he wishes delivery. We will semen test the bull calves next spring before delivery.

SEMEN COLLECTION:

We reserve the right to collect in herd use only semen at our expense and at the buyers convenience.

BULL GUARANTEE:

Each bull will be guaranteed unconditionally for 3 full breeding seasons. We will replace unsatisfactory bulls or you can receive credit for the difference between the purchase price of the bull and \$1100 or your salvage value, whichever is more, and less your usage.

Example: You buy a bull for \$3200. You use him 1 year and then he dies. We will give you \$1400 credit at a future sale. \$3200 - \$1100 = \$2100, or \$700 per year.

TERMS:

The terms of the sale are cash. Please include wintering charges in the amount. Credit arrangements may be made prior to the sale.

SIGHT UNSEEN PURCHASE PLAN:

If you are unable to attend the sale, give us a call with your requirements. Satisfaction guaranteed. If you don't like the bull when we deliver him, we'll keep him. Another option is for us to phone you minutes before your pick is being sold ~ You can hear the auction over the phone and bid without anyone knowing your limit.

RESPONSIBILITY:

Everyone attending the sale does so at their own responsibility, and without liability on the part of the owners or their employees.

LUNCH:

Help yourself to coffee and donuts when you arrive. Even if you have no plans to buy, please join us for lunch from 11:00 to Sale Time.

Bulls surprised by snow this September

Winter 2017 - 18

WELCOME TO OUR 35th ANNUAL PRODUCTION SALE

It is with pleasure that we welcome you to our 35th annual production sale and the 13th video sale to be held on our ranch. We feel this sale offers you a chance to incorporate into your herd some of the very best maternal genetics you can find anywhere. We have bred our entire herd A.I. to the very best bulls in North America for 46 consecutive years. Breeding A.I. means never being outbid on a bull we want or settling for second choice. The chart below compares the average Hereford and Angus bull born in 2018 with our average sale bull:

	CE	BW	WW	YW	Milk	REA	MARB
Average 2018 Hereford Bull	+1.9	+3.0	+50.3	+81.2	+22.7	+0.34	+0.09
Stromsmoe Average (28 Bulls)	+1.9	+4.2	+56.9	+92.9	+26.9	+0.32	+0.14
Rank within the breed	Top 50%	Top 75%	Top 25%	Top 20%	Top 25%	Top 55%	Top 27%
<hr/>							
	BW	WW	YW	Milk	REA	CW	MARB
Average 2018 Angus Bull	+2.2	+46	+80	+21	+0.41	+33	+0.35
Stromsmoe Average (48 Bulls)	+1.9	+55	+99	+27	+0.50	+39	+0.44
Rank within the breed	Top 42%	Top 20%	Top 16%	Top 7%	Top 31%	Top 30%	Top 29%

NOTE: To the best of our knowledge all Hereford bulls are DLF, IEF, and HYF. To the best of our knowledge all Angus bulls are AMF, NHF, CAF and DDF.

We invite you to come early to inspect the sale offering. If you have any questions at all just ask. Lunch will be served starting at 11:00 am. If you would like a sale video please contact us.

or visit our website at www.stromsmoeherefordandangus.com
The catalogue, sale DVD, and sale order will be posted.

HOW TO READ AND USE THE DATA

EPDs are the expected differences in performance and carcass quality of an animal's sons or daughters. Comparing EPD values allows us to obtain a difference between two animals.

Consider Bull A with a +60 EPD for weaning weight and Bull B with a +40 for weaning weight. On average, you can expect calves from Bull A to wean 20 pounds heavier than those from Bull B. If they each sired 25 calves, you could expect to market 500 more pounds of calf by choosing Bull A.

You might sell all your calves at market in the fall. Since you do not retain ownership in the calves, you might think that looking at yearling growth and carcass quality has no importance. I beg to differ.

The feedlot buyer knows exactly how well your cattle fed and graded, and will bid accordingly in the future.

PRODUCTION EPDs

CE (Calving Ease) is expressed as a difference in percentage of unassisted births in first calf heifers. If you use a +7 CE bull instead of a +2 CE bull, you can expect to help 5% fewer heifers at calving time.

BW (Birth Weight), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WW (Weaning Weight). This is the number you look at for weaning weight. The bigger the better.

YW (Yearling Weight), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires. High yearling weight does have a positive correlation to larger mature size.

SC (Scrotal Circumference), expressed in centimeters, is a predictor of scrotal size. Large scrotal size has a positive correlation to early fertility in heifers.

Doc Docility - (Angus sires) is expressed as a difference in yearling cattle temperament, with a higher value indicating more favourable docility. When we tag and weigh our Hereford newborns, we sit on the calf and ignore the cow. It is such an attribute for the Hereford breed. Since the Angus breed came out with Docility EPDs, we have made this a real priority. Although we never ignore the Angus mother, 95% of the birth weights are a one-person job - the docility is improving.

MATERNAL EPDs

MILK. The milk EPD is something to look at if you are retaining heifers. The higher the number, the more they are expected to milk.

CARCASS EPDs

CW Carcass Weight (Angus). Expressed in pounds, this is a predictor of the difference in hot carcass weight of a sire's progeny compared to progeny of other sires. The bigger, the better.

REA. The ribeye area EPD: the bigger the better.

Marb. The marbling EPD: the bigger the better.

Underneath the EPDs is the Breed Percentage. This is the percentile of where each bull fits in the entire breed.

HOW TO READ AND USE THE DATA

PIGMENT (Herefords)

This is the percentage of pigmentation around each bull's left eye (LE), right eye (RE), and scrotum.

AGE OF DAM

The age of the bull's mother when the most recent foot and udder scoring was done. We score the feet on a dry, frozen winter day (and always the worst foot). We score the udder the day the calf was born and before he has sucked (again on the worst quarter). We have included the cow's age as the scores often become worse as the cow gets older.

FOOT SCORE

We score the foot angle and the claw set on the mother of each sale bull.

UDDER SCORE

We score the udder suspension and teat size on the mother of each sale bull.

ACT. B.W.

The actual scale birth weight of each bull.

We have scale-weighed every newborn calf (both registered and commercial) for the past 37 years. Our neighbours probably thought we were crazy driving our tractor all over the pasture with the bucket up! We have used a tape, but only to compare. Every weight we write down is a scale-weight. We have found the tape to be 6 to 12 lbs light, and birth weight is too important to our customers (and our industry) not to be completely accurate.

Our new scale is a real back-saver

We occasionally weighed in the barn. 98% of the time like this.

W. I. (WEANING INDEX)

The weaning index of the bull. Average daily gain from birth to weaning with slight adjustments for age of dam (so we can fairly compare calves from heifers to those from mature cows). The average of our herd is always 100.

Y. I. (YEARLING INDEX)

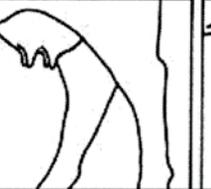

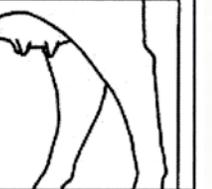

The yearling index of the bull. The average of our herd is always 100.

OCT. 12 Wt. and S.C.

The most recent weight and scrotal circumference measurement. Both numbers increase dramatically by sale day. We will have updates on our website a few days before the sale.

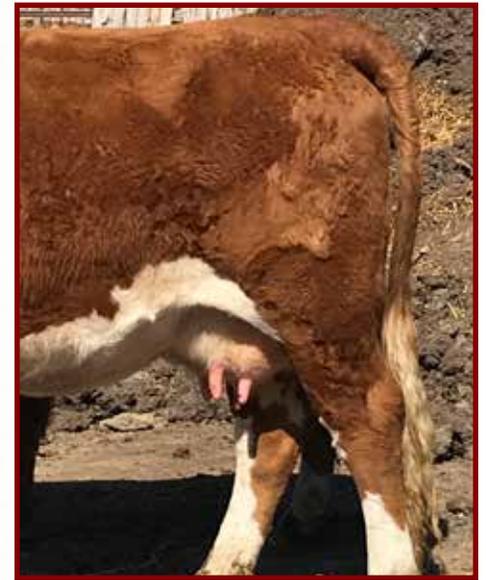

HOW TO READ AND USE THE DATA

Udder Suspension

				
1 – very pendulous	3 – large	5 – intermediate, moderate	7 – tight	9 – very tight

Teat Size

				
1 – very large, balloon shaped	3 – large	5 – intermediate, moderate	7 – small	9 – extremely small

Although we didn't need to help the calves from these cows suck this spring, they were still deemed as cull cows based on their udder scores. These pictures were taken in August, the day before we sold them.

The grandkids having fun.

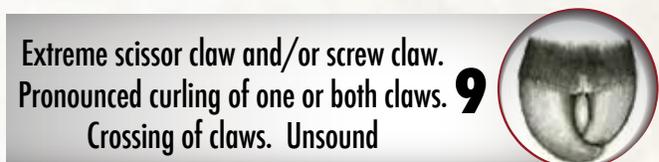

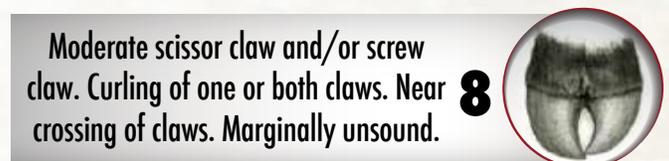

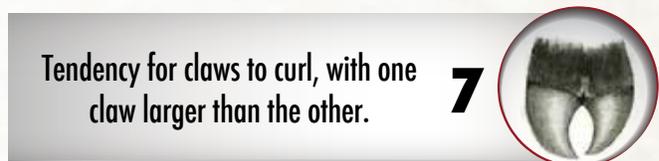

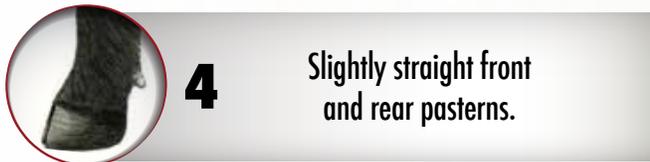

"I wish I could help."

FOOT SCORE GUIDELINES

Foot Angle (5 is ideal)

Claw Set (5 is ideal)

HEREFORD COMMERCIAL COWS

Free delivery within 350 miles on all sale cattle. You are free to pick and choose cows from each lot.

LOT 1	Cow	Date of Birth	Sire	Dam	Date of A.I.	A.I. Sire	Preg Check Due Date	Sex of Calf
	103C	April 5/15	85A	856U	---	---	April 10	Bull
	151C	April 18/15	96A	103Z	---	---	April 5	F

Two long-bodied feminine Hereford cows with excellent udders. 856U was an excellent producing Conway cow. Exposed to black Angus clean-up bulls June 25 to August 1.

LOT 2	Cow	Date of Birth	Sire	Dam	Date of A.I.	A.I. Sire	Preg Check Due Date	Sex of Calf
	143C	April 15/15	39A	26A	---	---	April 10	Bull
	165C	April 25/15	39A	34A	---	---	April 15	F

Two daughters of 39A, a long-bodied son of HH Advance 0002X, that sold for \$9,500 to Sandy Warburton, in our 2014 sale. They will have mid-April baldie calves.

LOT 3	Cow	Date of Birth	Sire	Dam	Date of A.I.	A.I. Sire	Preg Check Due Date	Sex of Calf
	64C	March 26/15	17Y	54ZB	June 20	Easy	March 30 (A.I.)	F
	37D	March 18/16	132X	147W	June 20	Easy	March 30 (A.I.)	F

64C is a fancy, good-uddered polled cow sired by the \$170,000 Lambeau 17Y bull from a cow we purchased as a feature heifer calf at Brost's. Both cows were bred to Bush's Easy Decision 98, a really thick, high-performance black Angus bull, on June 20, and both should have heifer calves.

BUSH'S EASY DECISION 98

Bred A.I. to 64E and 37D. Easy fleshing, high-performance bull.

COMMERCIAL BRED HEIFERS

The Lot 7 and 8 heifers are straight black and they sell bred A.I. to the highly proven low B.W. Hereford bull, Churchill Sensation 028X, and then exposed to 110F, a low B.W. polled Hereford bull selling in this sale. Lots 9 through 16 sell bred A.I. to the highly proven low B.W. Black Angus bull, BPF Special Focus 504, and then exposed to low B.W. black bulls. Each heifer is guaranteed to wean an excellent calf. We will deliver them free of charge within 350 miles of the sale - further for the cost of our fuel. As with the cows, you can pick and choose from each lot, but each lot will have a maximum of two buyers. The heifers were weighed on October 1, 2019 was another extremely poor grass year. These heifers will be much heavier on sale day; we will post their updated weights on our website two days before the sale. This year, for the first time, we had our vet sex the fetus when we preg. tested.

HUGHES HEREFORD BRED HEIFERS

You will like this powerful set of Hereford heifers we purchased this spring from Hughes Hereford Ranches, in Tompkins, Saskatchewan. They have one of the best commercial herds in the country - cows with extra length of body, extra milking ability in super udders, lots of femininity, and with super dispositions. They sell bred black for baldie calves.

This is a powerful yellow bull with extra muscle definition. His dam is a deep-ribbed, powerful Harland daughter that we rate really highly. She has an average W.I. of 105.0 on eight calves, and we have used two sons in our herd. Bryan Melin, Hughes Hereford Ranch, Denis Keith, and Cory and Monty Arendt have brothers.

We have pictured 64W (the mother of this bull) on more ads than any cow ever (plus she's the cow on our website), so you know how highly we regard her (W.I. at 107.3). A few years ago, we had a Hereford breeder tell us that she was the best Hereford female he had ever seen. 208F is a May bull - really attractive and well-balanced. Living Springs Ranch and Dakota Beazer have brothers.

Our second heaviest bull in the herd when we weighed them in September. 12B also has a good yearling selling (70F). 34G is wide through his hind end and has lots of capacity. This is a bull that we think has huge upside. 9 Bar Ranch has a brother.

C & N Erica 110Z	C & N Net Worth 41X
	GH Adams 513S Erica 140W

A wide-based son of Jindra Acclaim with spring of rib and easy fleshing ability. This is a heifer bull prospect (and for cows), and his numbers go right through the roof. 73G has a brother selling (183F), and one that sold to Circle Cross Ranches.

	C & N Eldorene 12P

Heifer bull prospect with carcass merit. 84G has true multi-trait superiority. Use him on cows when he gets too big for heifers. His dam (86E) is such a fancy and productive young cow.

Recommended for heifers. 94G offers big-time calving ease and carcass without compromising performance and maternal. His calving ease EPD of +13.0 is #1 in the sale (and in the top two per cent of the breed) - a true sleep-all-night heifer bull. He has a really special dam, too!

	C & N Wendy 138W

Another true heifer bull. The calving ease EPD of +12.0 is outstanding. Pictured is Connealy Stingray 9618, a super heifer bull himself. We included a number of heifer bulls in this sale (four from first calf heifers). They are not the biggest (or oldest), but we think they will be big enough. This way, you can get one more year out of your bull before he gets too big.
